

# Hi-Tech™

## Hi-Tech™ square profile

Hi-Tech square integrates the convex face profiles with a square insert edge that accepts materials up to 1/16" thick. This Hi-Tech product has a low

## Hi-Tech™ round profile

Hi-Tech round integrates the convex face profiles with a round insert edge that accepts materials up to 1/16" thick. This Hi-Tech profile has a radius

## Hi-Tech™ ellipse profile

The slim, 1/4" thick side tracks and top/bottom rails give the classic frame a square, fully framed design.

## Hi-Tech™ flat

The Hi-Tech flat profile is great for tactile and vinyl applications, as well as Raster Braille.

## Hi-Tech™ directory

Use Hi-Tech inserts and/or face profiles together with the 0.06" (1.5 mm) slim edge directory profiles to create endless directory and directional signs. The DeSign profiles can also be combined with the Hi-Tech insert and face profiles to create distinctive directories.
