

CLEARPATH®
SIGNAGE SYSTEMS

A Guide to Way Finding Solutions

ClearPath... different by design.

When we say we're "different by design," we mean it! Our products are engineered to give you the ultimate modularity and flexibility not found in other systems, and they are designed specifically to enhance your signage vision. And, as a company that *supplies signage professionals*, you can be sure that we *won't compete against you for your customers*.

Enclosed please find a sampling of frequently requested sign types for each of our design families.

We pride ourselves on configuring to you and your customer's requests, so please contact us with your project specifications.

ClearPath Signage Systems is one source for *all of your interior architectural signage products*, from signage accessories to stand-offs to our Triline[®] way finding frame system. See why ClearPath is different by design... visit www.clear-path.com or talk to a ClearPath representative at 1.866.953.2777.

JazZ[®]

Triangle side tracks capped
